Lieutenant Eugene McNamara arrived here yesterday evening from Camp Grant, Rockford, Ill. He will leave this afternoon to rejoin his camp and from there he will leave in a short time for France.

**HOOVER MAKES PLAIN THAT THIS COUNTRY MUST SEND FOOD TO ALLIES OR LOSE WAR**

Philadelphia, February 22 — As a war necessity the people must largely refrain from eating wheat flour for the next sixty days, possibly for a longer period. This statement was made today on the authority of Herbert C. Hoover, federal food administrator, by Howard Heinz, administrator for Pennsylvania, speaking before an audience of newspaper managers. A telegram was read from Mr. Hoover which made it plain that this country must immediately send food to the Allies or lose the war. If it is not sent "it means but one thing, catastrophe," declared Mr. Hoover.

### OUR COLORED CITIZENS

The body of Mrs. Alice Jordan is expected to arrive here today and will be taken to the home of her brother, Horace Yates, on East Fifth street. Funeral Sunday afternoon.

## HOOVER'S BLAME

Of Rail Tie-Up Arouses McAdoo—Director General Says as Far as Railroads are Concerned There Will Be no Famine.

Washington, February 22—Director General McAdoo today gave assurance "that so far as transportation is concerned, there is no danger of suffering from a serious food shortage in the eastern part of the country."

This was prompted by the warning given last night by Food Administrator Hoover that unless grain and meat movement is greatly increased in the next sixty days, the country is threatened with an acute shortage of food, and the program of food shipments to the Allies will fail.

In a letter to Mr. Hoover, the director-general declared that if the food administrator will give definite information on the location of stocks of supplies intended for the Allies, the railroads will move them promptly to seaboard.

Simultaneously the railroad administration gave out figures showing that the movement of grain to primary markets in the West within the last ten days was far greater than in previous years.

Although declaring their desire to avoid a controversy with the Food Administration, officials of the railroad directorate today did not conceal their belief that Mr. Hoover's statement was not borne out by facts shown in their reports. Members of Mr. McAdoo's staff assumed the attitude that Mr. Hoover had dealt in generalities, not supported by figures or other evidence showing such a pessimistic outlook on future food conditions.

## HEALTH OF THE ARMY IMPROVING

Washington, February 22—General health conditions of the regular army, national army and national guard were officially reported to the surgeon general today as showing improvement for the week ending February 15.

The death rate was the lowest since November 23, while fewer cases of the more serious diseases such as pneumonia and meningitis were reported than during the previous week.

Camp Bowie had the highest admission and non-effective rate for the national guard while Camp Travis led the national army.

Mrs. Ernie White of West Front street, is spending the week in Cincinnati.

## BRITISH OCCUPY JERICHO

Big Guns in West—French Report Heavy Artillery Fighting Has Begun Along Whole Front—New U. S. Units Engaged.

London, February 22—The British have captured Jericho, in Palestine, the War Office reports.

The city was entered by Australian troops yesterday. Little opposition was encountered. Subsequently the Australians established themselves on the line of the Jordan and the Wadi Anja.

The official statement reports the continuation of bad weather North and northwest of Jerusalem the British advanced positions extended slightly and rendered secure.

During the fighting of Wednesday the casualties of the British troops were again slight.

Since the capture of Jerusalem the British have been pushing ahead steadily, striking out to the North and East. Official statements from London in the last few days have reported rapid progress, and apparently the Turks have offered no determined resistance.

Aside from its historical importance, in connection with the British plan to free the Holy Land from the domination of the Turks, the capture of Jericho is of little significance. It consists merely of a group of quail hovels and a few ships, with about 300 inhabitants. Its chief strategic value lies in the fact that it gives the British domination of the Valley of Jordan and also control of a network of highways radiating from the town.

## French Report Heavy Firing Along Entire Front, But Infantry Is Idle

Paris, February 22—Heavy artillery fighting on the whole front is reported in today's official announcement.

The statement follows: "Heavy artillery fighting occurred along the whole front, especially in the regions of the forest of Pinon, Chevreux and the California Plateau (Alsace front); Butte du Mesnil (Champagne front); and Hartmannswiller-Kopf (Alsace). There was no infantry action."

## One German Killed and Another Captured in Patrol Fight in France

With the American Army in France. February 22—In a patrol fight, Americans from units under instruction in the famous Chemin-des-Dames sector killed one German and captured another. One American was slightly wounded.

This is the first time it has been permitted to reveal the fact that new American units have entered the line. The troops have been there for some time, suffering slight casualties, but their presence was kept secret until it was certain the enemy knew they were there.

Details of the patrol fight are as yet unavailable, beyond one unofficial report that the prisoner taken was captured single-handed by a young American from one of the New England States, who during the engagement dropped into a shell hole on top of a German hiding there and later brought him in.

The American forces entered the line on one of the darkest of nights through a shell-pitted region dotted with shell-wrecked towns. The French General commanding the sector, a hero of the Marne, greeted them as comrades in arms and hissed the American flag.

## 300 BELGIANS SEIZED BY RUSS

Washington, February 22—Official dispatches to the Belgian legation today told of the further commandeering by the Germans of young Belgians for military work behind the German lines and the firing of Louis Franck, a Flanders deputy, ten thousand marks for urging the Flemish people to stand steadfast in their resistance to German political intrigue.

Franck was taken before a military tribunal and was threatened with deportation, the dispatch said, but despite the German concern over the spread of the movement against the authority of the self-styled council of Flanders, this threat was not carried out. The judgment declared that since the deputy was charged with having incited a spirit of opposition, this was the last time he could hope to escape with a fine.

Commandeering of men for work behind the German lines continues to grow, the dispatch said. At Renaix, an industrial town in Eastern Flanders 360 young men were seized, many being taken in the streets. Some had fled and the Germans threatened to take old men unless the young ones returned.

Students were taken from the engineering school of Mons and sent to work at an aviation camp, while in Luxembourg more than 600 young men have been taken from villages for military uses.

## RIVER NEWS

The stage of the river this morning is 41.9 and is rising slowly. The steamer Greenwood will pass down today from Pomeroy.

## Flood and Fire

cannot damage your valuable papers if they are placed in a safety deposit box in our fire and burglar proof vault.

We have erected this vault at a considerable outlay of money for the protection of our own money and securities and have made ample provision for the same protection for the public. It may well be called "the community strong box." It provides a place of perfect security and renders the care and anxiety of watching and guarding valuables unnecessary.

Can you afford to take chances on the safety of your valuables when you can rent absolute security for them at less than one cent a day?

## MUTTON AND LAMB MAY BE EATEN UNTIL APRIL 15

Washington, February 22 — Lamb and mutton may be eaten on "meatless" days until April 15. The food administration in making this announcement indicated clearly that there is no chance now for lifting the ban on beef and pork, however. Since November 1, the food administration declares, America's beef export to the allies have amounted to less than 5 per cent of the total cattle slaughters. The per capita consumption of beef and pork during 1917 increased over that of pre-war years.

Beef and pork must be left off the menu on meatless days it was indicated. Rations in Europe, the food administration explains have been reduced to approximately one pound of meat per capita a week, or less than 30 per cent of the American consumption. European rations today are "so low as to tend to diminish the morale and resistance of the allies" Hoover declared.

Mrs. James Evans, of Pelham street, has returned home after a visit to her brother in Lewis county.
